Assistant Professor of Chemistry
Hampden-Sydney College
M. R. LOUTHAN, B. A.
Assistant Professor of Mathematics and Chemistry
Bluefield College

GENERAL STATEMENT

The first summer session of Hampden-Sydney College, Bluefield Division, will be held at Bluefield College, Bluefield, Virginia-West Virginia, June 15 to August 14.

This nine weeks session will enable students to get a full semester's credit in courses of study. Efforts will be made to arrange some six weeks courses for those whose specific needs can be met in that time. Such courses will begin on the opening date and end on July 24.

Location and Climate

Bluefield College is 2600 feet above sea level. The campus lies just beyond the best residential suburb of Bluefield, West Virginia, a thriving city of 20,000, on the border of Virginia and West Virginia. The school thus enjoys the advantages of open mountain country, but with all the advantages of a modern city. The scenery is superb with mountains towering on every hand.

On the campus are clear mountain springs, two of them mineral springs, with abundant water supply. The buildings, modern and sanitary in every respect, are located on a fine elevation overlooking a fertile blue grass valley.

The air is pure and invigorating. The summer temperature moderate and cool at nights. The climate is unusually healthful, malaria and fevers practically unknown. The campus of 100 acres furnishes an ideal scenic and academic setting for a summer school.

Fine recreational facilities are offered. The campus adjoins the Bluefield country club and by payment of a small fee, summer students may have country club privileges including golf, swimming pool and tennis. Bluefield College has its own tennis courts.

Regular street car service is maintained between Bluefield College and the city of Bluefield, offering easy opportunity for shopping and amusements. The campus is also easily accessible by Virginia State Highway 128.

Admission

Any student eligible to enter regular sessions of the colleges may be admitted to the summer session. Teachers holding a Virginia or West Virginia certificate or equivalent from other states will be admitted on this basis. Due consideration will be given the application for admission of mature students who may profit by the summer school courses.

Students who have attended other colleges and desire to become candidates for degrees in either Hampden-Sydney or Bluefield College should send a transcript of their records, to the registrar of the college of their choice, before the opening of the summer session.

Expenses for Nine Weeks

Tuition	\$30.00
Registration	5.00
Laboratory fees:	
Biology	7.00
Chemistry	10.00
Physics	7.00

For those who attend only six weeks the tuition will be \$20.00, other fees being the same.

ALL FEES MUST BE PAID BEFORE REGISTRATION IS COMPLETE.

Bluefield College will furnish room and board to a limited number of students at \$7.00 per week. Application for room, with a deposit of \$5.00, should be made to Bluefield College. Accommodations may be obtained in private homes in Bluefield.

Class Attendance, Credit and Grades

To receive full credit for courses, students must register not later than June 17. Failure to attend 95 per cent of classes in a course may result in a reduction in credit for the course.

The passing grade is 75. Students whose grade is between 60 and 74 will be permitted to secure credit by special examination or otherwise.

All credits are in semester hours.

Students may not register for more than 9 hours except by special permission.

VIEW FROM THE CAMPUS

COURSES OF INSTRUCTION

BIOLOGY

	sem.	hrs.
1-2—General Biology—Recitation and lab.	6	
7 —Genetics—Lectures and problems	2	

CHEMISTRY

1-2—General Chemistry—Recitation and lab	8
3—Qualitative analysis	4-6
4-5—Organic chemistry	4-6
6—Quantitative analysis	4-6

ECONOMICS

Economics A1—An Introduction to Economics	3
Economics A2—Economic Problems — Public Finance	3

EDUCATION
